# FLUTTER AND GITHUB – HOW OPEN SOURCE CHANGED MY LIFE.

**KAMAL SHREE**

GOOGLE DEVELOPER EXPERT  
(FLUTTER & DART), YOUTUBER

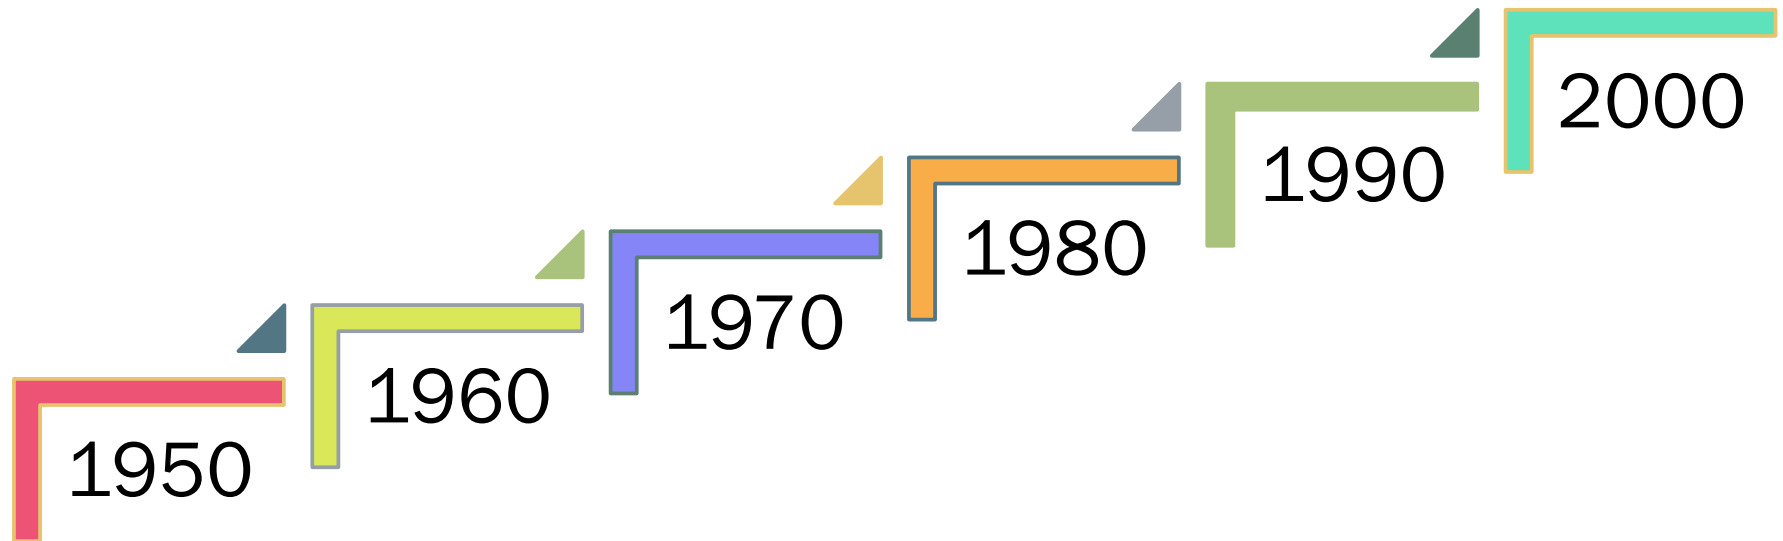

# ENTERPRISE PROJECTS

- Everything is organized
- No Risk, Secured.
- Support Ecosystem.
- Improved Functionality.
- User Friendliness.

---

# HISTORY

- 44% of the organizations to use open source as a rescue option.
- Half have policies governing employee contributions to open source.
- 48% cited the increasing efficiency of application development and maintenance as the reason for embracing open source.

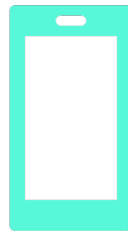

---

## MY JOURNEY

Web

Mobile

Community

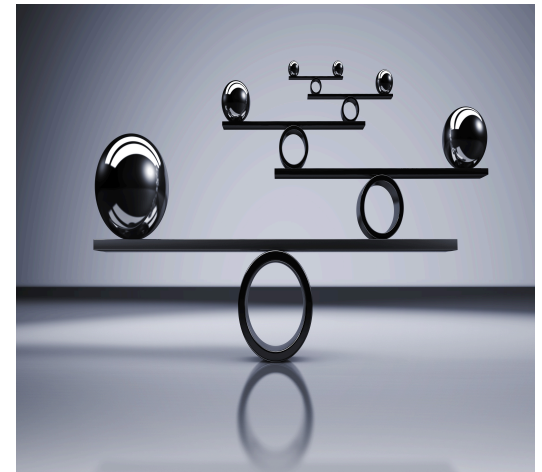

**Open Source doesn't mean it's Free**

CREATIVITY

COMMUNITY

FLEXIBILITY

OPEN SOURCE

---

## Where to Start?

**M**ost popular languages on GitHub

**T**ype of projects

**V**olume of the project

## What to do?

**F**ixing bugs

**P**ull Request

**D**ocumentation

**C**lean Code

## What Next?

**C**reate Open Source

**A**lternate to commercial products

**E**xisting Open Source

**C**lean Code

The image features a stylized logo for Flutter. It consists of a dark gray vertical bar on the left, an orange rectangle in the upper right, and a gray rectangle in the lower right. The word "FLUTTER" is written in white, serif, all-caps font across the orange rectangle.

# FLUTTERISTAS

## Interested in joining?

- Are you interested in joining the Flutteristas?
- Do you identify as a woman or non-binary who has an interest in the Flutter SDK?
- Do you agree to the Flutteristas' Code of Conduct (see appendix)?
- If you answered yes to all three of these questions, contact the presenter or one of the Flutterista managing team members via Twitter:
  - Danielle Cox: @imafiguresk8r
  - Stephanie Patterson: @GeekMeSpeakStef

## What are the Flutteristas?

- The Flutteristas is a world-wide community of people who identify as women or non-binary who have an interest in the Flutter SDK.
- The Flutteristas have a monthly meeting which usually includes a presentation by Google Flutter team member(s) or other Flutter Community member(s).
